**Subject:** Follow up on Lac du Flambeau and potential NRDA

Hi Kristen, I am following up on our conversation from last November about potential for a Natural Resource Damage Assessment (NRDA). I have talked to several people and the best person to follow up with is Charlie Chandler (phone number below, copied above) who is the BIA contact for NRDA. I hope that is helpful to you. If I hear anything more that could help, I will be sure to let you know. It was nice to have met you. Ann Whelan

**Subject:** WI Northwoods UST case?

Hi Ann,

I've been able to touch base with Charlie Chandler (BIA; 202-208-5037) and Annette Trowbridge (FWS; 612-713-5104) (both cc'd above) about the potential case you mentioned last week. I think they both need better information than I was able to provide to determine whether their bureaus would be able to get involved. (Especially knowing if there is a viable RP.)

Thanks and best,

Lindy
